Matrix Innovations Enters Agreement with Taylor Made-adidas Golf

PHOENIX, June 9, 2000 - Taylor Made-adidas Golf of Carlsbad, Calif., manufacturer of SuperSteel™ Metalwoods®, SuperSteel™ irons and the Taylor Made® Nubbins™ putter has retained Matrix Innovations of Phoenix to adapt new, proprietary technologies to the Taylor Made product line.

According to Tim Louis, CEO of Matrix Innovations, Matrix has recently entered into a research and development agreement. "We're thrilled to be working with a world leader in the golf industry on a very significant technology application program. We believe that projects like this will position Matrix to make major contributions to the golf industry in the near future." Louis said.

Matrix Innovations was formed as a subsidiary of VYATEK SPORTS in September 1999 to create breakthrough golf shaft designs using advanced composites and new metal alloys. VYATEK SPORTS develops high-performance consumer sporting goods applications based on new materials, designs and/or manufacturing processes.
